

Richard Bassett AAPS PSQA

Photography became of interest to me as a child, watching my father take photos as we enjoyed Australia together. Visiting new places, meeting people and capturing a lifetime of memories.

I have been involved with photography clubs for over 20 years, learning, improving and helping others to understand and improve.

My personal favorites are connecting with nature, macro and portraits.

As a result of attending and running workshops, I extended my knowledge to become a judge for the PSQ in 2010.
