

Paul TILLEY FAPS PSQA

Married with kids and grandkids.

Recently retired Construction and Project Management Professional and University Lecturer and Researcher.

Like most, I started taking general photos to capture holidays and family events. However, due to a personal interest in classic cars and historic motor sport, I became a part-time automotive photo-journalist for over 30 years.

First introduction to camera clubs was in the UK in the mid 2000s and since then, I have broadened my interests to become an enthusiastic *Portrait, Landscape, Nature, Macro* and *Astro* photographer, using Nikon digital equipment.

I am currently a National and International Exhibitor, with photographic strengths in the Action, Portrait, Landscape and Nature genres... in both colour and monochrome. I also like to print my own photos, so they can be properly appreciated.

I'm a current member at Aspley Camera Club, but with previous international associations with to following:

England

Bolton Camera Club

Leicester Forest Photographic Society

Shaftesbury Camera Club

Scotland

Livingston Camera Club

Dundee Photographic Society

Glenrothes Camera Club

Scottish Photographic Federation (Previously, an Accredited Judge)
